KRIS KOPCZYNSKI

2/4 Ferry Rd Gardens EH4 4AW, Edinburgh

kopczkrzy@gmail.com +44 7455 38 20 76

14.04.1982, Poland*

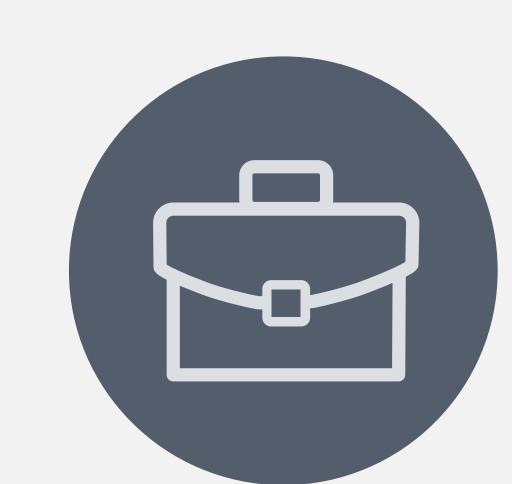

Passionate software developer with 3 years of experience in blending the art of design with skills of programming to deliver engaging user experience through efficient web development.

Able to adapt quickly, learn fast, and work effectively as a part of a team in a fast-paced work environment or on his own, highly resourceful and creative individual.

Accessibility, usability, and inclusion advocate.

Currently looking for a position in a team that can support and challenge talented people in taking ownership of their work and business.

EXPERIENCE

Money Dashboard (2020 - present)

Worked in a fast-paced Agile environment for an award-wining startup, constantly shipping new user-facing features for a financial management website (and mobile) application with React (and React Native).

Built a reusable, quality level code while ensuring the technical feasibility of UI/UX designs.

Collaborated efficiently with product managers and design team members by taking an active role on both sides and defining how the web application looks as well as how it works.

Freelance Web Developer (2018-2020)

Delivered end-to-end commercial, heigh quality SPAs with CSS3, HTML5, and various JavaScript frameworks (React, Next) in close collaboration with a diverse group of private clients (including local theatre).

Designed responsive, cross-browser compatible, SEO friendly, and accessibility compliant websites with enhanced performance, while overseeing the full project life cycle.

Produced website mock-ups for clients to ensure quality control and client's satisfaction.

Major Non-commercial Projects

Full-stack MERN application with user authentication (cookie generated session) and a moderately complex app state for creating and storing pdf-formatted invoices.
