a.k.a **Kris**

A self-taught web developer passionate about coding and web accessibility.

I have 2+ years of commercial experience of providing responsive SPAs. I enjoy turning complex problems into simple, beautiful and intuitive web applications. I'm a creative, energetic, result-focused and success-driven individual, who is constantly eager to learn new skills. I have recently developed an interest in web accessibilty as I want my work to be a great experience for every user.

May 2018 - Present: Schaufuss Entertainment / Rose Theatre Edinburgh
Responsive SPA built with Meteor.j and React.js. End-to-end commercial project for a local theatre. Features: dynamically created routes based on a show's name and a customised contact form. I'm currently managing the website for running shows.
www.rosetheatreedinburgh.com

May 2019 - Aug 2019: Murray Grant Official Website
A responsive SPA built with React.js. This project featurs all businesses of a local entrepreneur. End-to-end commercial project delivered with Agile methodology. Features: multiple reusable swipeable carousels and HTML5 Video.
www.murraygrantofficial.com/

May 2019 - Jun 2019: Marc McBride Official Website + AMB Collaborative
A responsive SPA built with React.js. End-to-end commercial project based solely on the client's design. Marc's website features HTML5 Video with fully customised controllers.
